

## Developing a Chatbot

Date	9 NOV 2022
Team ID	PNT2022TMID10418
Project Name	Smart Fashion Recommender Application

The screenshot displays the IBM Watson Assistant Lite web interface. The browser address bar shows the URL: <https://eu-gb.assistant.watson.cloud.ibm.com/crn%3Aav1%3Abluemix%3Apublic%3Aconversation%3Aeu-g...>. The interface includes a top navigation bar with the text "IBM Watson Assistant Lite" and an "Upgrade" button. Below this, a sidebar on the left contains a menu with "Actions", "Variables", and "Saved responses". The "Variables" section is currently selected and expanded, showing a list of variables created by the user. The main content area displays a table with the following data:

Name	Type	Initial value	Description	Variable ID
Address	Text Free text			Address
Name	Text Free text			Name
Pincode	Number			Pincode

At the bottom of the table, there is a pagination control showing "Items per page: 50" and "Showing 1-3 of 3 variables". A "Preview" button is located at the bottom right of the interface.
